Program Learning Outcomes

Learning outcomes represent culminating demonstrations of learning and achievement. In addition, learning outcomes are interrelated and cannot be viewed in isolation of one another. As such, they should be viewed as a comprehensive whole. They describe performances that demonstrate that significant integrated learning by graduates of the program has been achieved.

The graduate has reliably demonstrated the ability to

1. Analyse a variety of authentic readings from a range of subjects.
2. Communicate competently at the level required for postsecondary studies, showing flexibility and clarity of thought and expression.
3. Conduct research and write essays to ensure success in post-secondary studies.
4. Examine and evaluate various aspects of our changing society to assist in developing a sense of personal and social responsibility as a citizen in society.
5. Develop and apply fundamental skills and strategies to ensure academic success in post-secondary studies.
6. Critically read and analyse academic texts using effective reading and note-taking strategies.
